Changes in Bp Allied V7 SP3 Revision 3

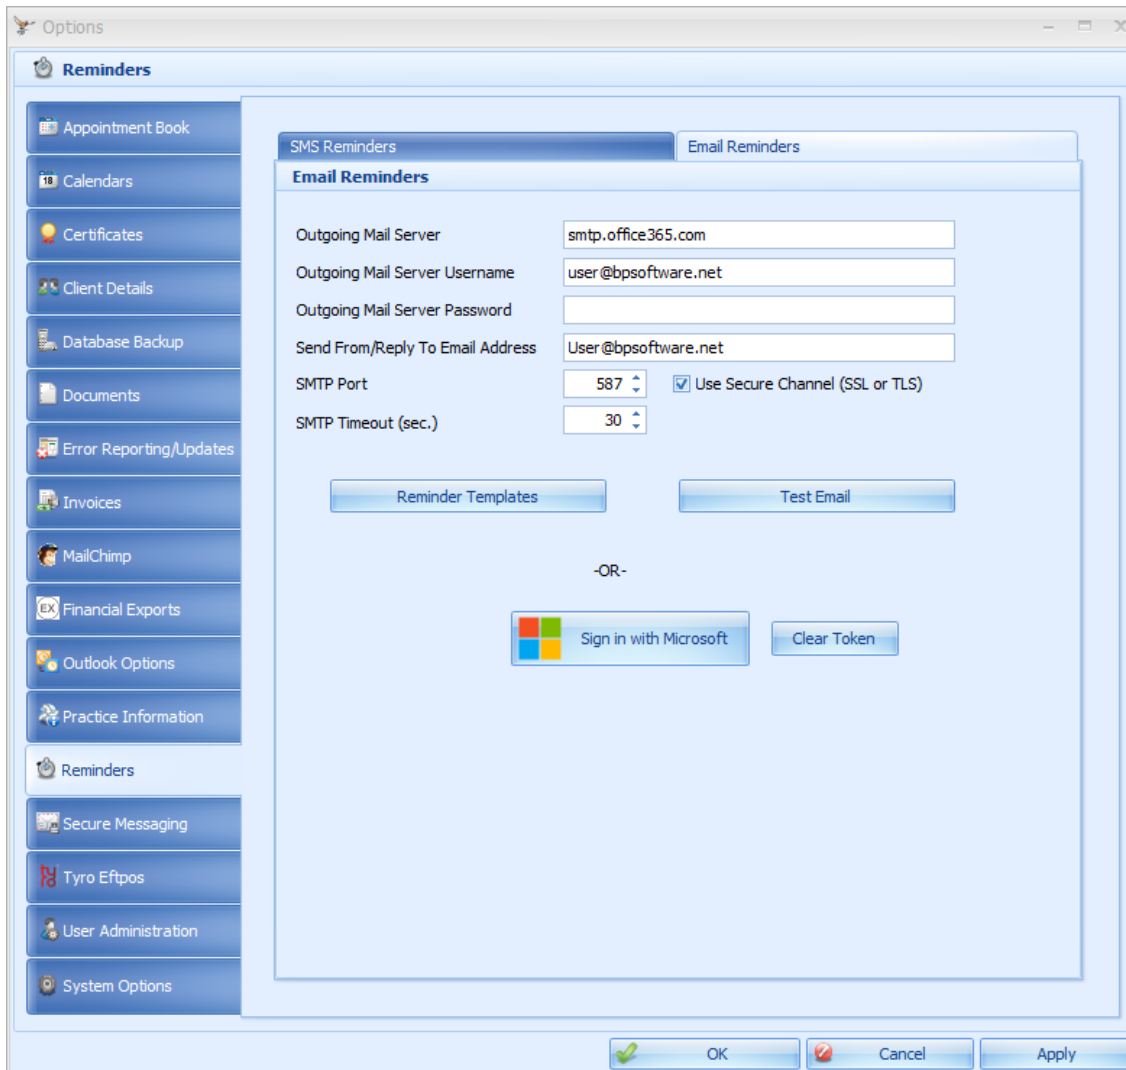

The **V7 SP3 Rev 3** release (7.3.45722.0) includes the following updates:

New Features & Enhancements

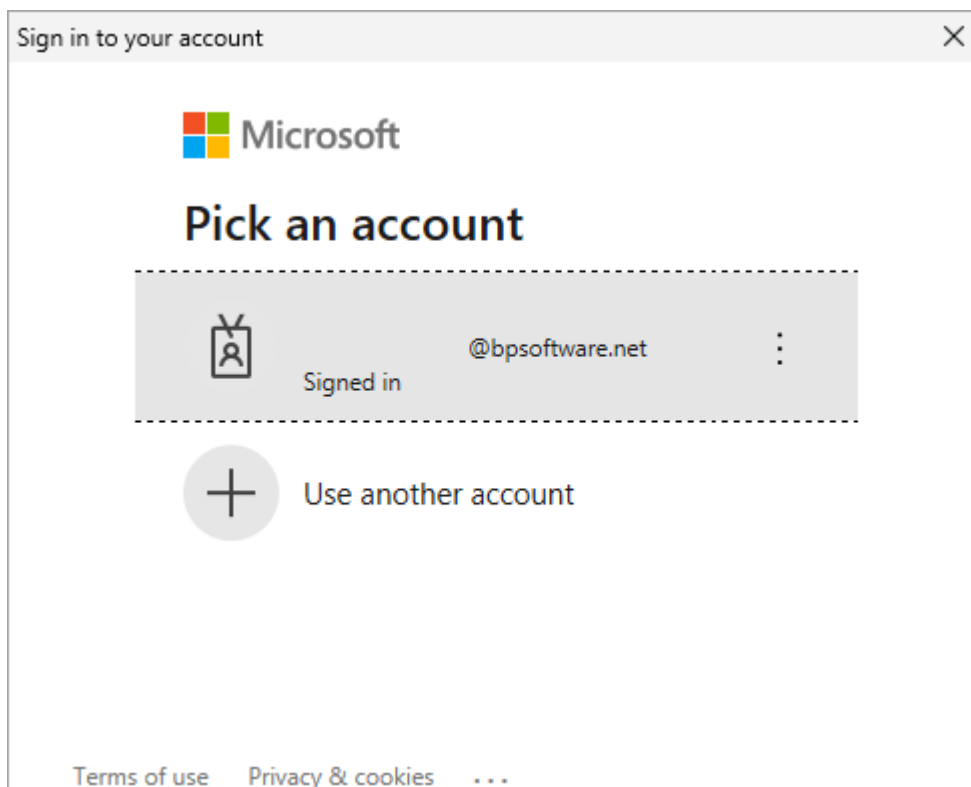

Microsoft oAuth2.0 for Email

Open Authorisation 2.0 (OAuth2.0) is a standardised protocol that enables secure access to user data without requiring the user to disclose their credentials. It has become the preferred method for granting third-party applications restricted access to user accounts while maintaining robust security.

1. Go to Options > Reminders > **Email Reminders**.
2. Enter the Outgoing Mail Server as **outlook.office365.com** and the SMTP Port as **25** or **587**.
3. Enter your Microsoft email address in the **Outgoing Mail Server Username** field.

4. Click **Sign in with Microsoft**.
5. Chose to sign in with a personal or business account.
6. Pick an account to sign in with.

7. Click **OK** to save and close.

TIP Select **Clear Authtoken** to reset the email preferences and enable editing.

Other Enhancements

Function	Release Notes	Key
Client Details	The ability to delete a BodyChart has been added for users with the appropriate permissions (4023). Additional warnings have also been added.	75210
Daily Appointment List	The Appointment Type field has been added to the Email Daily Appointment list template.	75784
General	The embedded web browser has been removed from Bp Allied. Your default web browser will launch when external web pages are prompted by Bp Allied.	78117
Invoices	A new field, Provider Number , has been added to the Invoice creation screen. This field is populated based on the provider location and if it is linked to a health fund or Medicare claim. This field will populate on the invoice template.	21501

Bug fixes

Function	Release Notes	Key
Client Details	Some users experienced an issue where the ' Consultation Details have changed ' prompt incorrectly appeared when no details were changed. This issue has been resolved.	71556
Contact Details Export	An error has been resolved for Bp Allied when exporting emails using the Contact Details Export.	75595
Payments	When the preferred payment type was set to Bulk Billed then later updated to another payment method, the cents value could not be edited when making payments. This error has been resolved.	70198
Permissions	Users were able to create custom reports when the permission 1022 , permission to run custom reports, was disabled. This issue has been resolved.	72455
User Help	An error has been resolved where the Getting Started Knowledge Base web page would not load correctly when launched from within Bp Allied.	71902
