

Key Functionality of the Best Health App

View Upcoming and Past Appointments

Patients can view their upcoming and past appointments.

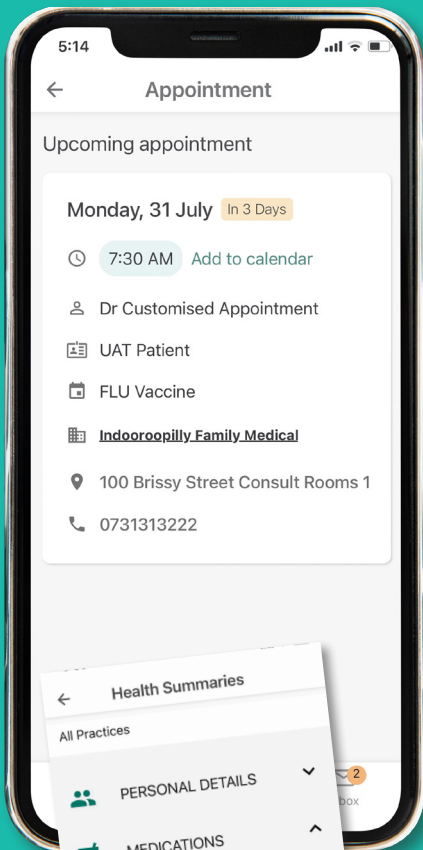

Create Appointments

For Practices that use a Third Party Provider's online appointment solution and have set this up in Bp Premier, patients can load this directly from within the App.

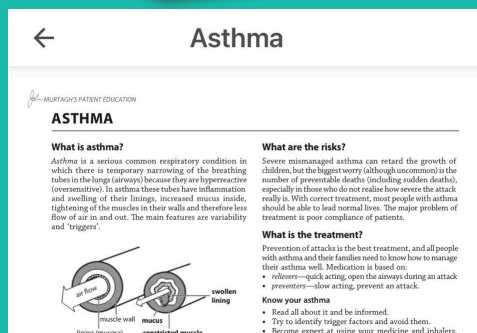

Appointment and Clinical Reminders

Messages sent from the Practice will appear as new messages in the Inbox in the App.

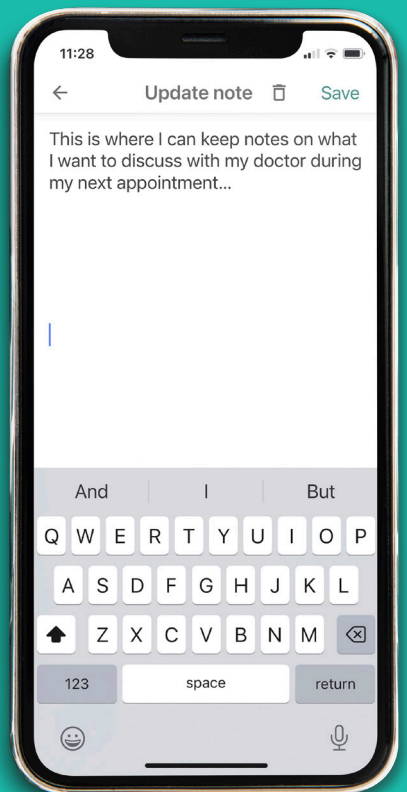

Receive and View Health Fact Sheets

Providers can send Health Fact Sheets relevant to the patient's health directly to the App.

Health Notes

This feature allows patients to keep notes on what they want to discuss with their doctor during their next appointment.

Receive and View Health Summary

Providers can send a patient their Health Summary directly to the app.
